

1 62. (New) A method as in claim 60, wherein the container defines a
2 chamber, the chamber including a pair of closely spaced-apart faces that are separated by
3 walls to define a narrow interior, wherein one of the faces defines a planar surface on
4 which the probe array is disposed.

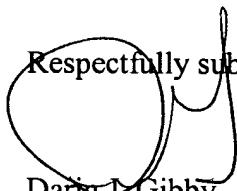

1 63. (New) A method as in claim 62, wherein the walls of the chamber
2 are set at angles sufficient to agitate the fluid when rotated.

REMARKS

All of the claims from the Preliminary Amendment have been canceled and replaced with new claims 41-63. Examination of claims 41-63 is respectfully requested.

CONCLUSION

Examination of the application, as amended, is respectfully requested. If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 303-571-4000.

Respectfully submitted,

Darin J. Gibby
